

BIG NEWS for our South Africa Team!!

We're MOVING!

We need your help!!

Right now, **we are taking a HUGE leap of faith!** We have done our best to be wise with donations as they have come in. We have saved enough to make the required downpayment. After that... we don't know yet where the subsequent payments will come from. Yet, we are confident that God WILL provide! Maybe He will use you!

- We have been watching and praying for years for a place to put down roots and build the dreams that God has given us for shelters, foster homes, feeding children, and more.
- **The property that we have found is 20.5 acres.** There is already a house and security-fenced-in yard that will more than accommodate our current needs. Outside the fence there is plenty of room for share-crop farming or small businesses to help generate ongoing income as well building the dream!
- There is an RDP development (similar to "section 8 housing" in the States) being built that will be partially adjacent to this property giving lots of ministry opportunities!
- **This property will cost \$185,000 including closing fees.** (This is \$92,300 less than the asking price.)
- After the downpayment of \$77,000, **we have 18 months to pay the remaining \$108,000.** In order to accomplish this, we must make installments of **\$6,000 each month.** Most of this is above and beyond our normal operating costs and ministry expenses.
- We know that you are regularly praying for us, and we appreciate that very much.

Would you PLEASE consider:

- **becoming a monthly supporter**
- **making an increase to your monthly support**
- **making an extra one-time donation toward the purchase of the property**
- **asking your employer about any matching donation programs. (Engage Africa is a 501(c)3 company organized as a charitable organization.)**

We are confident that this is God's leading... at the same time, it is challenging to walk by faith when it is impossible to see how the end will be attained!
